• Michael Reichenecker

15+ years in VIP aviation, including 10+ years as "Aircraft Interior Architect Product Sales and Design, VIP & Special Mission Aircraft Services" at Lufthansa Technik AG. 30 years architect and property development.

• Marta Rodrigo

20+ years in VIP aviation service and design liaison for private VIP completions and cabin projects.

• Angela Haupt

25+ years in real assets and product development, 10 years at Deutsche Asset Management, NYC, and Allianz Global Investors.

ABOUT

At MOVATION, we focus on aircraft interior architecture and design for VIP wide- and narrowbody aircraft for governments, corporations and private individuals. We are proven product, process and style innovators with an outstanding track record in execution and implementation of solutions for our clients.

EXPERIENCE

VIP- & Business Class type interiors for wide- and narrowbody aircraft models:

AIRBUS CJs 380, 350, 340, 330, 318- 21, 220

BOEING BJs 787, 777, 767, 747-8, and 737 BBJs 1-3.

Patents or patents pending include:

"Living Lining" aircraft lighting system (with Lufthansa Technik).

TRIPLE 999 UV-C LED based decontamination system.

Outstanding projects include:

- VIP Concept Design "Welcome Home" for A350 widely published and shown on fairs and conventions NBAA, EBACE, AIX, MYS.
- Innovative B737 "Long Range Traveller" light weight interior concept showcased by Boeing in their publication "20 Years of BOEING BUSINESS JETs" under "The Future of Aviation".

Unique among design firms in our field, our scope of services includes:

- Insider experience of completion centers to our clients' benefit
- Deep understanding of certification requirements
- Design tailored to given budget or down time windows
- Operations and logistics consulting

Our workflow is organized to support our clients with developing design and design strategies for new or used aircraft, including modifications and refurbishments.

SERVICES include

- Short specification/aircraft cabin survey (including CMS/IFE)
- Conceptualization and design planning (2D and 3D CAD)
- Customized interior design
- Tender ready design package

We design complete cabins based on client requirements including custom linings, lighting, seats, monuments, galleys, shades, carpets, fabrics, artworks.
